60 NEGRU, ROȘU

DESCRIERE

Classic safety low shoes with a steel antipuncture midsole and a steel toe cap, which protects against compression with a force of up to 15 kN or a load weighing up to 20 kg from a height of 1 m. Antistatic outsole made of two-density polyurethane guarantees properties of the sole, which is also resistant to oils and abrasion. The upper of the shoe is made of natural split leather and the inner lining of breathable polyester. Thanks to the excellent price / quality ratio, this model is very popular among customers for whom price is one of the main criteria when purchasing safety shoes. The classic design will fit perfectly with most Fridrich & Fridrich workwear collections.
